[PORTFOLIO](#)

[GITHUB](#)

[LINKEDIN](#)

SKILLS

HTML, CSS, JavaScript, React (Hooks), Redux, GraphQL, Python, Django, Node.js, Git, AWS(Lambda), Bootstrap, Tailwind CSS, PostgreSQL, Java, Salesforce CRM

PROJECTS

TWITTERCLONE (Python,Django, HTML,Bootstrap)

[github](#)

- Built a scalable Twitter clone using Django framework featuring user log in, log out,customized homepage, tweet composing page and follow button
- Utilized Bootstrap to design and customize a responsive front-end for the application

PHOTO GALLERY (React, TailwindCSS, Pixabay API)

[live](#) | [github](#)

- Generated a single page image gallery using React
- Styled with Tailwind CSS framework to harness utility classes while creating each component.
- Utilized Pixabay API, a video and image API to fetch the photos used in the application along with some data.

VOICE POWERED EXPENSE TRACKER (React Hooks, Context API, Material UI, Speechly)

[live](#) | [github](#)

- Created an expense tracker that showcases State Management in React and Context API enabling the user to share specific forms of data across all levels of the application.
- Applied Material UI framework to provide consistency in design for the application to look aesthetically appealing.
- Employed Speechly to enhance the application with voice functionalities for better user experience.

COVID-19 TRACKER (React Hooks, Material UI, Chart JS)

[live](#) | [github](#)

- Fetched data from the API using Async/Await syntax.
- Utilized the chart.js library to display the data fetched to dynamically make the data visualizable.
- Harnessed the material UI framework to provide consistency in the design of the application.

EXPERIENCE

Software Developer

Genspark

10/2021- Present

- Currently in training for Salesforce Administrator/ Developer to support Genspark clients.
- Trained in Java and Agile methodology to support Genspark clients as Junior Software Developer

Developer Intern

Branch Insurance

12/2020-07/2021

- Developed and maintained the existing codebase utilizing Javascript best practices
- Utilized internal and external documentation to troubleshoot a variety of issues in the internal application for the Sales and Service team
- Enhanced internal service team experience by utilizing Zendesk API to create service tickets upon purchase of an insurance policy

Student Coach

Kenzie Academy

01/2020- 07/2020

- Guided students to maximize their learning through lessons and project work.
- Provided timely and actionable critique to help students improve their skills and subject matter expertise.
- Helped students identify their unique strengths and opportunities.
- Worked with Instructors and Facilitators to deliver the best learning experience for students.

EDUCATION

Full Stack Web Development

2019-2020

Kenzie Academy

A 12 month intensive program that focused on workplace readiness and hands-on learning.

The curriculum is focused on the needs of the industry. At the end of the program the student should have gained technical, soft and pertinent problems solving skills.

BS Healthcare Administration
University of Phoenix
